

DEPARTMENT OF  
ENGINEERING

## Erosion & Sedimentation Implementation Approval

This form should be kept on site in the construction permit box during all phases of clearing and grading. After initial installation of erosion & sedimentation control devices (i.e. silt fence, sediment traps, etc.), this form must be completed by a City of Rocky Mount Engineering Department Construction Inspector prior to overall site clearing and grading. **No grading or clearing beyond that which is necessary to install erosion and sedimentation control devices is permitted until this form is signed by an Inspector.**

The erosion and sedimentation control devices implemented on this site were inspected by the City of Rocky Mount Engineering Department on \_\_\_\_\_ and found to be in compliance with the approved plans. Site clearing and grading may begin in accordance with the approved plans and Section 801 of the City of Rocky Mount Land Development Code.
